

Fundraising For Your Projects Using

ioby

What is **ioby** ?

ioby is a crowd-resourcing platform for citizen-led neighbor-funded projects. Crowd-resourcing combines the concepts of crowd-funding (the ability to pool small donations made online to a specific cause or project) and resource organizing as a way to build support and ensure success of a project.

**Need money or volunteers for
your neighborhood project?**

ioby's got you covered.

Hi-viz public bike counter

NYC's first public bike counter! Imagine a counter for bikes, used by community projects around NYC. Now imagine the numbers on the screen are legible from 100 ft. That's the super bright public bike counter.

the project

Imagine a portable counting device to measure bike traffic, used for community projects around NYC. Now imagine the numbers on the screen are legible from 100 ft away. That's the hi-viz bright bike counter.

With technical help from the talented team at Tomorrow Lab (<http://tomorrow-lab.com/>), we're creating this tool to help communities gather data about biking, and be seen doing it. Tomorrow Lab are kindly donating their time to prototype and build the counter. Planning Corps is fundraising to cover material costs.

Once the counter is ready, Planning Corps will go out and offer its visible, effective counting services to community groups in the city!

volunteers needed!

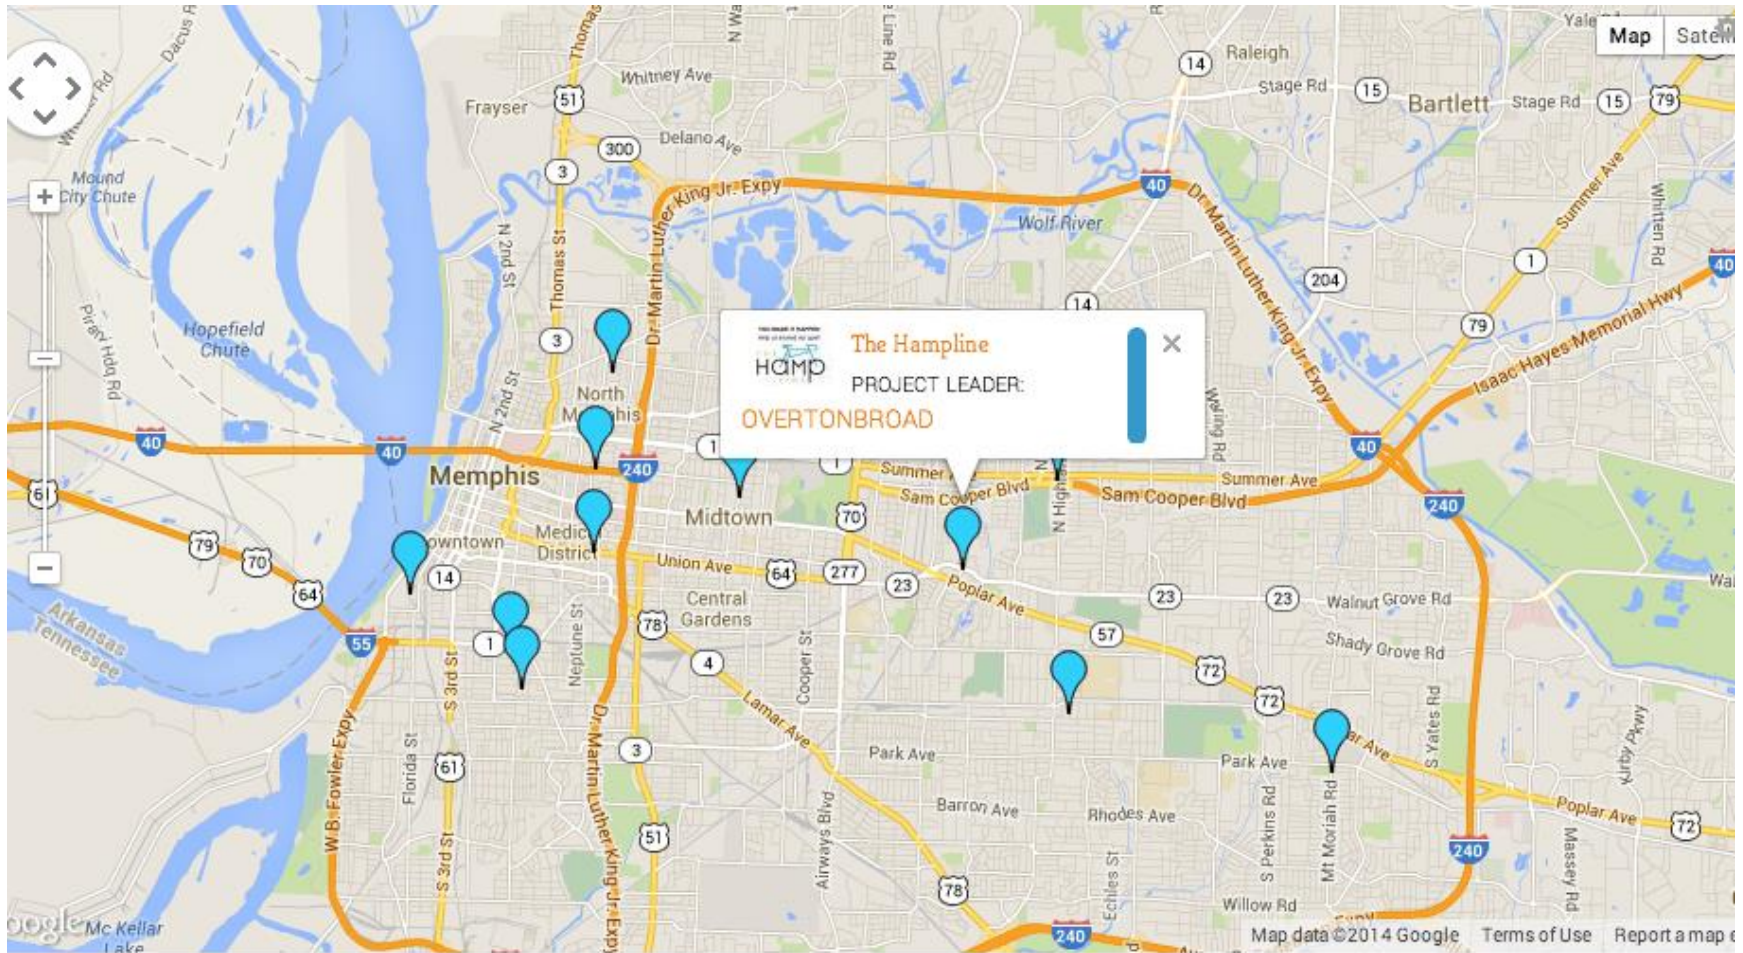

This project's leader is looking for volunteers to help out:

Please call the volunteer coordinator, Kirk, at 901-866-1461 to get involved.

the project

Memphis Bioworks is launching Memphis Civic Solar, a project for the City of Memphis that will install 1.5 Megawatts of solar energy spread across 30 different municipal buildings (50 kilowatts each) in neighborhoods throughout Memphis. When completed, Civic Solar will be one of the largest municipal solar projects in the nation, positioning Memphis as a national leader in sustainability and creating
